EXPEDITED SERVICES

Organic operations sometimes face situations that require short certification time frames. In order to serve these situations, OTCO has created the Expedited Services Program. This program is designed for new applicants or current clients with new additions to their system plans.

To enroll in this program, please review the information below and return the completed form with your certification request. Fax, email or mail your completed form with payment to OTCO at fax: 541.753.4924, email: organic@tilth.org, 260 SW Madison Avenue, Ste. 106, Corvallis, OR 97333.

Why should I enroll?

Enrolling in the program means that your file will receive top priority processing. OTCO will begin securing an inspector immediately. Once your application is reviewed and approved, your inspection will occur as soon as possible based upon both inspector availability and your schedule. OTCO will review your inspection report immediately upon receipt and grant certification as soon as possible. Final certification depends on the findings of the inspection.

Can certification be granted by a certain date?

No, your certification is dependent upon your Operation's ability to comply with the standard(s) requested, the quality of your application, and the inspector's findings. While OTCO can expedite many aspects of the process many factors affect the final certification decision.

To Enroll:
Complete bottom portion and return with your payment

How much does it cost?

The expedited fee for a Farm service is $500 and $750 for a Handler. This fee will only apply if you voluntarily request expedited service by filling out and submitting this form with payment.

Who is this service for?

Operations that are capable of compliance but have not allowed sufficient time to undergo the certification process. Examples include operations with impending harvests, market releases, product launch dates, or who may be moving to or adding a new facility.

What is expected of you?

Please submit a complete application or the changes to your current Organic System Plan. Documents are available on the Oregon Tilth website: www.tilth.org. Be sure to provide timely responses to information requests during the application, inspection and review process. Include payment of expedited service fees and subsequent certification costs with submission.
