Stay Tilthy this Fall & Winter!

The Organic Education Center at Luscher Farm is currently putting the garden to bed, and wrapping up another successful year of organic classes. Their complete class offerings for 2010 will be posted by *December 15th*, so please check back with us then. We are looking forward to growing with you next spring!

Other Tilth-worthy Events:

- Nov. 4 - 6: Fruit & Vegetable Processing Short Course - A 2 1/2-day short course that provides basic fruit & vegetable technologies, quality analysis & hands-on-experience.
- Nov. 5: NW Organic Farm Food Safety Summit - Oregon Tilth, among others, have teamed up to help farmers identify and address food safety issues on the farm, as well as discuss mandates, issues & concerns.
- View all upcoming events and classes...

OTCO Farms Big & Small

OREGON TILTH

Big farms, small farms - Oregon Tilth certifies them all! 39% of our certified farms are less than

Agreement in Monterey, California. Working in concert with a number of other conservation and organic farming groups including the Wild Farm Alliance, Community Alliance with Family Farms, and the National Organic Coalition, OTCO presented testimony in opposition of the Act, which OTCO believes would have serious detrimental consequences for organic growers and the environment, while little to decrease the incidence of food-borne illness. 50 acres. 47% have between 50 and 500 acres. 9% have between 501 and 1000 certified acres, and 6% have more than 1000 acres of organic farmland. Regardless of their size, these farms are contributing to a sustainable food system for us all. Find a grower in your area with our producer search!

Rodale Institute Launches *Demand Organic* Website

Demand Organic (DO) was conceived to educate and increase public awareness of the importance of organics. They focus on consumers who have not considered the possibilities of their organic choices, in hopes of inspiring long-lasting and profound personal change. The goal is to help folks navigate the confusion surrounding organics; from labeling to asking the right questions to interpreting scientific research. Read more...
