

Seed and Planting Stock Record						
A record of seed and plants you purchased for use in organic production. Space is provided to record whether seeds/ transplants are certified organic (O), untreated non-organic (U), or produced on-farm organic (F); to list seed treatments* used; and to note non-GMO verification analysis, if available. Remember that if you use non-organic seeds or transplants, you must document your search for the organic equivalent. Non-organic perennial planting stock must be under organic management for a minimum of one year prior to the first organic harvest.						
Farm Name or Unit: _____				Crop Year: _____		
Seed and Planting Stock Information				Code (O,U,F)	Treatment* Type/Brand	Confirmation of non-GMO status? (non-organic only)
Crop	Variety	Supplier	Lot #			

* "Treatment" refers to natural and synthetic substances included on the National List ONLY.

* "Treatment" refers to natural and synthetic substances included on the National List ONLY.

Organic Seed and Planting Stock Search Record			
Producers may use non-organic seed only when organic seed is not commercially available. Use this form to document companies and individuals you contacted in your search for organic seed and stock.
