

SOIL FERTILITY FOR WINEGRAPES

(DETERMINING AND CALCULATING NEEDED NUTRIENTS)

SPONSORED BY

KINSEY AGRICULTURAL SERVICES, INC.

CONDUCTED BY NEAL KINSEY

DATES: February 15 - 17, 2010

LOCATION: The Embassy Suites, NAPA, CA.

For room reservations call Kinsey Ag. Services, Inc. (573) 683-3880

REGISTRATION: \$1200 per person, including lunch each day.

Or \$1500 per person, includes breakfast, lunch and lodging for 2/14-2/16.

This workshop utilizes 100 soil tests employing the Albrecht System to establish the desired formula and calculate needed nutrient requirements for winegrape production.

Monday – Working with Soil Tests, pH and Liming.

Registration: 8-8:30 am. **Presentation:** 8:30-12 & 1:00-5:30.

1) Soils for Winegrapes 2) Soil pH. 3) Evaluating Liming Materials. 4) Calcium/Medium to Heavy Soils. 5) Magnesium/Medium to Heavy Soils. 6) Calcium & Magnesium on Sandy Soils.

Tuesday– Building Vineyard Fertility with Major Nutrients.

Sessions: 8-12 & 1-5:30 with breaks.

1) Nitrogen & Sulfur. 2) Compost. 3) P & K Needs. 4) Sodium. 5) Evaluating Excesses.

Wednesday – Working With Micronutrients.

Sessions: 8-12 & 1-5 with breaks.

1) Boron, Iron, Manganese, Copper, and Zinc – Excessive to Deficient. 2) Preparing new vineyard soils. 3) Nutrient Levels in Treated vs. untreated soils. 4) Soil test differences.

Thursday – Vineyard Tour (Optional). Depart: 8:30 am/Return 4:00 pm.
