

# OREGON TILTH 2013 WEBINAR SERIES

Oregon Tilth is excited to announce its first webinar series for our clients and those interested in organic certification. The webinar series will cover several aspects of the certification process and offer further clarification on new and old procedures. Our knowledgeable staff will present all sessions and will be available to answer questions on the topics presented.

## Revised Organic System Plan and Renewal Process

**July 16, 2013**  
10am-12pm PST

In 2013, Oregon Tilth revamped our renewal process and Organic System Plans (OSP's) to a modular form. What do these changes mean to you? This two-hour session will go over how to fill out a modular form for new applicants and how to use the form to update your current Organic System plan.

## Effectively Responding to a Noncompliance and the Certification Process

**August 13, 2013**  
10am-12pm PST

Have you received non-compliances that you didn't understand or were not sure how to properly respond? This two-hour session will equip you with the knowledge to effectively respond to non-compliances. We will also describe the certification process in detail, including your appeal and mediation rights.

## Introduction to the NSF/ANSI 305 Personal Care Program

**September 17, 2013**  
10am- 11am PST

What is the NSF/ANSI 305 Standard? Can my personal care products comply? This one hour session will go over the requirements of personal care product certification offered through Oregon Tilth.

## International Markets and Exports

**October 15, 2013**  
10am- 12pm PST

Do you export products to other countries? Do your customers ask you for affidavits to demonstrate you meet the various equivalency agreements? If so, you will want to join this webinar! This session will give a thorough overview of the export requirements and the various equivalency agreements with Canada, Japan and the EU.

### How do I register?

Click the "Register" link on the email notification we sent to you. We will send additional details prior to the event. If you have any questions, please call (503) 378-0690 or visit [www.tilth.org](http://www.tilth.org)

### What technology capabilities are required?

We will use GoTo Webinar as a platform for all sessions. Make sure to download the program prior to the webinar.

### Will the sessions be recorded?

Yes! The sessions will be recorded and available for viewing at your convenience. If you can, make sure to attend so that you can participate and ask questions.
