

Organic – Conservation Cross Training

Producer Panel Questions

- 1). What challenges did you face during the transition to organic?
- 2). How do you perceive your farm's benefit to natural resources?
- 3). Have organic certification requirements limited in any way your ability to reach your resource conservation goals? If yes, please share your ideas of tools and/or resources that would help you overcome current obstacles or challenges in reaching conservation goals while meeting organic certification requirements.
