

OREGON TILTH INGREDIENT SOURCING

The following resource links will help you find organic ingredients.

The Organic Pages On-Line

The Organic Pages On-line provides users with a quick, easy way to find certified organic products, producers, ingredients, supplies and services offered by Organic Trade Association members.

<http://www.theorganicpages.com/topo/index.html>

Organic-bio.com

International directory of organic food wholesale & supply companies. The database contains more than 2000 product groups and addresses of organic producers, wholesalers and retailers.

<http://www.organic-bio.com/en/directory/>

NonGMO Report

Publishes an annual Non-GMO Sourcebook, a buyers guide to suppliers of non-GMO seeds, grains, ingredients, and foods. Includes organic seed sources.

<http://www.nongmosourcebook.com/>

Institute of Food Technologists Healthful Foods Directory

This buyer's guide includes product and contact information for over 100 companies providing ingredients for the nutraceutical, functional foods, natural and organic sector.
